Newsflash

Institute for Advanced Study (IAS)

On March 31 and April 1, we welcome Professor Emmanuel Didier at IAS for two on-site events. Didier is specialized in the study of statistics as a tool of government. On March 31, he will present his report to the Conseil Consultatif National D'Ethique on fake news. On April 1 he will present his book "Statactivism" followed by a discussion on the topic.

Register for the on-site event on April 1

Esmee Geerken on building to enact the environment

Esmee Geerken is ArtScience fellow since May 2021 at IAS. During her fellowship she explored building from a geological, chemical, biological and sociological perspective, in collaboration with IAS researchers, Waag and the Self-Organizing Matter group. In this interview she looks back on the past year and what she has achieved during the pandemic.

Naja Hulvej Rod receives Elite Researcher prize

On February 24, IAS fellow Naja Hulvej Rod has been awarded with the prestigious Danish award for her research on stress epidemiology. She is best known for leading the large-scale research project called DANLIFE where she follows the lives of two million Danes since their birth year, from 1980 onwards, in different registers.

IAS Review edition 3 is out!

IAS proudly presents the third edition of IAS Review. In IAS Review we highlight a selection of papers on challenging interdisciplinary research topics, recently published by members of our community. Learn about polarization in online social networks, the impact of exposure to adverse socioeconomic conditions on chronic stress and many other topics.
