**ENLENS midterm report launched:
key findings and next step**

ENLENS

Oct 11 · 2024

On September 16, ENLENS team launched its midterm report alongside the celebration of five years of the Future of Energy Seminar. Currently, ENLENS comprises over 30 actively engaged researchers involved in 13 ongoing projects. These projects have addressed the national and regional energy transition in the Netherlands and Europe, while also extending their reach to countries in South America and Africa, thereby transcending geographical borders. The methods employed span across five different faculties, jointly used to study the energy transition in alignment with all the 17 SDGs.

Since the start of ENLENS, Future of Energy Seminar has been given a substantial boost, and has been one of the most successful results of ENLENS.

Once a month, two lecturers from different UvA faculties are invited to present how their current research can offer new insights and initiate discussions on the progress of the European energy transition and its impacts worldwide. These discussions shed light on the intricate interconnections between the energy transition and nearly all SDGs.

To get more detailed information about the findings and next steps of ENLENS, you can download the full report by clicking the button below:

ENLENS call for project proposals

With this call, ENLENS aims to offer initial funding for cross-faculty initiatives, creating new opportunities for researchers to apply their expertise in an interdisciplinary approach. The goal is to facilitate the development of joint proposals for securing external research funding.

Application deadlines: 1 April and 1 October, **but intermediate submissions are also considered.**

Each faculty is eligible for funding up to **€15,000**, with an additional **€15,000** available for data acquisition/preparation if well justified, resulting in a maximum funding cap of **€45,000** per project.

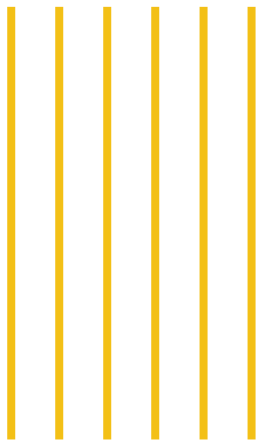

To access instructions and the application form for **2-page proposals**, click on the button below:

ENLENS - Call for proposal

FUTURE OF ENERGY SEMINAR

The next Future of Energy Seminar is scheduled for Monday, 14 October 2024, from 12:00 to 14:00 (including a light lunch), at the Institute for Advanced Study (IAS - UvA) – for on-site attendees only.

Presentations:

Title: "The energy transition and international justice"

by Christina Eckes

Title: "CO2 capture, storage and conversion in the Netherlands"

by Sonja Pullen

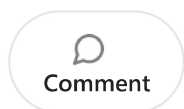

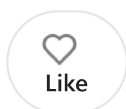

To participate, **please RSVP by 11 October**, by clicking on the link below:
